

Two-Stage Air Conditioner with Puron® Refrigerant

MODEL 127A

Preferred[™]
SERIES

As an ENERGY STAR® Partner, Bryant Heating & Cooling Systems has determined that this product meets the ENERGY STAR® guidelines for energy efficiency.

The Preferred Choice for

Bryant® Earns Your Trust

Since 1904, Bryant has earned the trust of homeowners by doing whatever it takes to deliver superior quality and performance. Thanks to the commitment and dedication of our development and manufacturing teams, American families can count on Bryant for the indoor comfort solutions they need. Today, as environmental awareness and energy costs rise, Bryant offers an excellent choice for value-conscious homeowners: the Model 127A Two-Stage Air Conditioner with Puron® Refrigerant.

The Bryant Model 127A provides worry-free cooling that won't deplete the Earth's ozone layer. It delivers savings with up to 17 SEER cooling efficiency. And it does it as quietly as the refrigerator in your kitchen. Designed, built and backed by the most trusted name in the

business, and installed by your local Bryant dealer, the Model 127A Two-Stage Air Conditioner with Puron® Refrigerant provides comfort you can enjoy season after season.

Let Uncle Sam Pay You Back

The Bryant Model 127A delivers exceptional comfort and meets the high energy efficiency needed to qualify for U.S. Government tax credits. Tax credits are like money in the bank because they are subtracted directly from the taxes you owe. Ask your dealer for details on how much you can save with this model. In addition, when you replace an older 8 - 10 SEER air conditioner with the Model 127A, you'll continue to save every time you pay your utility bill for many years to come.

In addition, the Model 127A delivers the peace of mind that comes with choosing a system developed by a company known for its commitment to customer satisfaction. From initial design through product testing and assembly, we go beyond the industry's expectations for quality and reliability to be sure that every unit we make measures up to even tougher standards – yours.

Remarkably Efficient, Cool Comfort

Warranty

To the original owner, the Bryant Model 127A Two-Stage Air Conditioner is covered by a 10-year parts limited warranty upon timely registration of your new equipment.* Ask your Bryant dealer about optional extended warranties, which may include labor.

* Warranty period is 5 years if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts warranty. See warranty certificate at bryant.com for complete details.

Performance

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.

Perfect Your Comfort with Perfect Humidity®

The Model 127A is your trusted source for cool comfort. For enhanced control over temperature AND humidity, add a variable speed furnace or fan coil and our Thermidistat™ Control. This system will give you full, seven-day-a-week programmability and our comfort-enhancing Perfect Humidity® function. Perfect Humidity technology elevates your comfort by providing up to 30 times the humidity control of standard air conditioner systems.

The Thermidistat™ Control is much more than just a thermostat. It is your single source of precision temperature, humidity and indoor air quality control.

Get Comfortable with Environmentally Sound Operation

With the Model 127A, you join the growing ranks of homeowners who choose environmentally sound Puron® refrigerant. It's an important consideration because Freon® -22*, the refrigerant most commonly used in residential air conditioning systems, is being phased out of existence due to concern over the Earth's ozone layer. In fact, manufacturers such as Bryant can no

longer create Freon-22 products as of January, 2010. While these products may continue to be available as inventories last, costs to service air conditioners using Freon-22 may rise as supplies dwindle.

By choosing the Model 127A with Puron refrigerant now, you are helping preserve the ozone layer while protecting yourself from potentially expensive service costs down the road.

* The registered owner of Freon is E.I. Dupont de Nemour & Co.

Home Comfort Components

PURON® REFRIGERANT

Bryant's environmentally sound refrigerant keeps you cool without depleting the Earth's ozone layer.

1 ENVIRONMENTALLY SOUND, EXTRA-EFFICIENT

Our two-stage scroll compressor is designed for use with Puron® refrigerant to provide quiet, smooth-operating comfort and years of environmentally sound, trouble-free performance.

2 RELIABLE PERFORMANCE

Bryant's Microtube™ Technology refrigeration system with copper tube/aluminum fin coil maximizes transfer of heat outside your home to ensure cooling efficiency. Coil materials and design minimize chances for rust and corrosion for lasting performance.

3 QUIET OPERATION

Smooth-running two-stage scroll compressor features naturally quiet operation that is further reduced with our compressor sound hood.

4 LASTING COMFORT

High-pressure switch and the filter drier protect the unit's most important single component: the compressor.

5 BUILT TO LAST

The Bryant DuraGuard™ protection package ensures lasting durability and good looks through years of exposure to weather, sports and lawn equipment and more. Three key elements to this package include: galvanized steel cabinet, louvered coil guard and baked on powder paint.
